

GEORGIA BIOMEDICAL INSTRUMENTATION SOCIETY

A Society for Georgia BMET's and others involved in healthcare technology

Dedicated to advancing the knowledge of personnel involved in the development, selection, operation, repair and support of biomedical instrumentation in healthcare institutions throughout the State of Georgia.

2016 GBIS Technical Conference Expo

With a Meet N Greet Event

Atlanta, GA

When: Friday, August 5th 6:30 p.m.-9:30 p.m. **Where:** Atlanta Marriott Century/ Emory

When: Saturday, August 6th 7:00 a.m.-5:00 p.m. **Where:** Children's Healthcare Office Park

The event will offer educational, networking and personal development opportunities to help expand your expertise, increase your department productivity and much more. Vendors will be demonstrating the latest in medical equipment technology and will be available to answer any and all questions. There will be a Meet and Greet Event prior to the conference and several door prizes to give away. Funds from this event will be used for meals, charities and operating expenses. Vendors are asked to contribute to the co-sponsorship events to help keep costs down.

Event Fees: Prices may change with board approval

Hospital Employees: Free

Participants: \$ 0.00

2015 Corporate Members: \$450.00 (membership renewal included) Non-Members: \$550.00 (includes 12 mo. Membership)

Motivational Guest Speaker: Andrew L Halasz

Andrew Halasz has been driving results for over 30 years in a variety of functional roles across many industries.

Prior to co-founding VIZZIA Technologies, a leading healthcare technology, process improvement company, he held numerous leadership positions with GE, including Vice President Sales & Marketing, Global Sourcing Director and Operations Director.

Andy also worked for Recall Corporation, a 700-million dollar global leader in information management services, where he held positions of Business Unit Vice President & General Manager, Global Chief Information Officer and Sr. Vice President of Global Operations.

While at Recall, he led the development and implementation of the company's global standard operating procedures across 400 facilities in 22 countries and 5 continents. He also led the consolidation of Recall's global data center network moving from hundreds of applications and IT operations, to a common application platform that is shared globally in just 3 data centers. These results were accomplished while the company acquired and successfully integrated over 50 acquisitions.

Andy holds a B.S. degree in Mechanical Engineering from the University of New Mexico and graduated from the Advanced Management Program at Harvard Business School.
