Company Fact Sheet (April 2024)

# DRIVEN BY A VISION TO IMPROVE HEALTHCARE

Vizzia Technologies is a recognized leader of advanced real-time location systems (RTLS) and data analytics for healthcare organizations. Vizzia is an award-winning managed service provider (MSP), deploying and maintaining clinical workflow technologies.

Its innovative InVIEW<sup>SM</sup> software platform provides real-time, actionable data and process visibility to improve enterprise efficiencies and patient care.

Vizzia serves several of the largest and "most wired" hospitals in America, designated by Becker's Hospital Review and the College of Healthcare Information Management Executives (CHIME).
